The Rollamo 1959

The Annual Publication
of the
MISSOURI SCHOOL OF MINES
Volume 53

This Do M.

This is M.S.M. It is here where the life of a high school student ends and the life of a college student begins. Where the administration, the classes, the athletics, the organizations, and the social events, will someday reflect upon the future success of any student from M.S.M.

It is here where the student through his classroom work can form a strong foundation for his future. Here is where his ambitions can be formed so that someday he can concentrate his knowledge and abilities to a betterment of the world in which he will live.

Leadership is put forth in the campus organizations of which he is a member. Where his leadership ability can prosper and develop so he can be prepared for the responsibilities he must assume upon graduation.

Through his participation in social and athletic events, his foundation for future success is greatly strengthened.

With all of these opportunities present, there can be little doubt but that the future success of a Miner is greatly assured.

S. M.

Foreword

William Fesler, Jr. ----- *Editor-in-Chief*
James L. Kozeny ----- *Business Manager*
Louis C. Rephlo ----- *Associate Editor*
Kenneth I. Pendleton ----- *Senior Photographer*

Between the covers of this years Rollamo is a collection, both pictorial and written, of events and happenings at M.S.M. for this past year.

The book is highlighted by objects that are meaningful to the student and to life at M.S.M. These objects represent a full school year of activity and they are singled out in order to emphasize the importance that these objects have in the life of the Miner as the school year unfolds.

The staff of the Rollamo greatly appreciate the opportunity to present to the faculty and students of M.S.M. this collection of memories of the past year with the hope that these memories will never be forgotten.

Administration

PRESIDENT

Parker Hall
Center of the
MSM Administration

PRESIDENT ELLIS

School of Mines and Metallurgy
University of Missouri

Beginning as an assistant professor, Dr. Ellis was soon promoted to professor. Demonstrating his ability also as Dean of the Arts Colleges, Dr. Ellis was appointed University President in 1954.

Dr. Ellis has had to cope with the many problems of rapid expansion in his five years of office. His administrative policies during this unparalleled growth were a fine tribute to the principles of education.

PRESIDENT ELMER ELLIS

B.A., 1924, M.A., 1925, University of North Dakota;
Ph.D., 1931, State University of Iowa.

BOARD OF CURATORS

BOARD OF CURATORS

Mr. Henry P. Andrae	Jefferson City
Mr. Lester E. Cox	Springfield
Mr. J. A. Daggs	Memphis
Mr. Boyd Ewing	Nevada
Mr. Oliver B. Ferguson	Fredericktown
Mr. James A. Finch, Jr.	Cape Girardeau
Mr. Randall R. Kitt	Columbia
Mr. Robert Neill	St. Louis
Mr. J. Doyle Patterson	Kansas City

Composed of nine state residents, the members of the Board of Curators of Missouri U. and MSM are appointed by the Governor and confirmed by the state senate. Only one appointment from each congressional District is permitted. Not more than five members may be from any one political party.

The curators term of service is six years with three terms expiring every two years. Still eligible for reappointment, many members have served for several terms. Each year the Board selects three of its members to serve as the Executive Committee for the Missouri School of Mines and Metallurgy. Business pertaining to MSM is transacted at this group's monthly meeting.

DEAN CURTIS L. WILSON

The Dean in his office.

public speaker, Dr. Wilson is always in great demand. His talent in this field is unlimited and he is equally versatile in delivering a formal address or an informal discussion. Although he has the immense task of co-ordinating the activities of the entire school, Dr. Wilson still tries to accept as many speaking engagements as he can fit into his already tight schedule.

The growth and expansion of the Missouri School of Mines and Metallurgy campus is a fitting tribute to Dr. Wilson, the director, the educator.

Dr. Curtis L. Wilson, Dean of Missouri School of Mines and Metallurgy, is one of the outstanding men in the field of engineering as well as education. His sound guidance and directions are an understandable part of the prestige MSM has been granted by industry.

Dr. Wilson completed his education both in this country as well as abroad. His numerous articles written on technical subjects have received much recognition. Prior to his arrival as Dean in 1941, Dr. Wilson was an instructor at Montana School of Mines.

Known for his adept ability as a

DEAN CURTIS L. WILSON

Dean M.S.M., 1941

B.S., 1916, Baltimore City College; E.M., 1920, Montana School of Mines; Ph.D., 1928, University of Goettingen; D.Eng., 1954 Washington University; D.Eng., 1955, Montana School of Mines.

The Dean and Mrs. Wilson in their home.

ADMINISTRATION

VERNON GEVECKER

Assistant Dean

It is through Assistant Dean Gevecker that the school maintains personal contact with the students. From entrance until graduation, Mr. Gevecker aids in direction of Scholarships and awards, student affairs, extracurricular activities, and finally, job placement.

NOEL HUBBARD

Assistant Dean

To Mr. Noel Hubbard fall many important and diversified tasks so necessary to the efficient operation of any university campus. His duties include student welfare, classroom absences, public relations, and student part-time employment. Another capacity in which Mr. Hubbard ably serves is advisor to the scholarship committee, loan fund committee, and foreign student advisor.

PAUL R. PONDER

Registrar

It is upon the sound judgement and long experience of the registrar that the exhaustive task of class and classroom scheduling falls. His staff must also capably record and maintain the student files and records.

Vernon Gevecker — *Assistant Dean*

Noel Hubbard — *Assistant Dean*

Paul R. Ponder — *Registrar*

ADMINISTRATION

EMMETT KLINKERMANN

Business Manager

To Mr. Klinkermann falls the authority to transact the financial business of the Missouri School of Mines. His responsibilities range from receiving tuition and fees to the purchase of supplies, insurance, and the transaction of contracts and deeds.

EARL RANDOLPH

Librarian

The extensive job of direction of the library so necessary to any educational institution is capably held by Mr. Randolph. He has had a scientific background and maintains an AB and AM degree in Library science.

EARNEST P. HENDRIX

Superintendent of Buildings and Grounds

Mr. Hendrix controls the extensive job of maintenance of the large numbers of buildings on the MSM campus. His responsibility also extends from the cleanliness of those buildings to the conditioning of the grounds and athletic fields.

Emmitt Klinkermann — *Business Manager*

Earl Randolph — *Librarian*

Ernest P. Hendrix — *Superintendent of Grounds*

CERAMIC ENGINEERING DEPARTMENT

The word "Ceramica" is applied to all non-metallic earthy substances which must be heat treated to form the finished product. From its un-complicated beginnings in prehistoric times, ceramics has advanced into a complex science.

It is interesting to note that people today are intimately associated with thousands of ceramic products daily, yet seldom is the word ceramics applied to such products. Today, the Ceramic Engineer can enter one of the four fields open in ceramics: production, sales, research and administration.

A Compression Test.

Loading a sample in compression.

Taking down test data.

CERAMIC ENGINEERING DEPARTMENT

The Ceramic Engineering Department was established in 1926 and is the youngest department on campus. Housed in Fulton Hall, the Ceramics Engineering Department is considered in the minority with respect to the number of students enrolled, still our Ceramic Department is the fourth largest in the United States and has been singled out as outstanding in refractories technology.

As research activities are expanded, the demand continues to increase and these factors make it possible for the young Ceramic Engineer to go into his choice of branches of the industry and advance rapidly.

THEODORE J. PLANJE
Department Chairman
Professor of Ceramic Engineering 1946, 1955. B.S. in Ceramic Engineering 1940, Missouri School of Mines; Ph.D., 1950, Missouri.

Performing a grinding operation.

CHEMICAL ENGINEERING DEPARTMENT

The Chemical Engineer is found in every large industrial organization participating in the development and improvement of new products. His duties may place him in the executive department, research, development, plant and equipment design, plant construction, process control of technical sales. No matter where he is though, his knowledge of Chemistry and Chemical Engineering, is essential to produce a better living for man.

There are unlimited opportunities for the person who is willing to secure his fundamental training in Chemical Engineering. The field is so diversified that the man so trained may select the type of work he particularly desires.

The Chemical Engineering student receives training that supplies

DUDLEY THOMPSON
Department Chairman

Professor of Chemical Engineering 1956, B.S. in Chemical Engineering, 1935, M.S. 1941, Ph.D. 1950, Virginia Polytechnic Institute.

Working at a lab setup.

Chemical Engineering Profs.

CHEMICAL ENGINEERING DEPARTMENT

the foundation and tools he needs to start a professional career. Organic, inorganic, analytical, and physical chemistry, mathematics, physics, mechanics, and economics furnish the basic training. The professional aspects are emphasized by industrial stoichiometry, chemical engineering unit operations, design and thermodynamics. Other supporting engineering subjects in civil, mechanical, and electrical engineering complete the four year curriculum.

The School of Mines also offers a science-chemistry option in addition to training in Chemical Engineering. Students interested in theoretical, analytical, inorganic, organic, and physical chemistry or the research and teaching of chemistry are offered complete accredited curricula for preparation in these fields.

Getting help from a Prof.

Working in Chem Lab.

Prof. Roberts checks test tubes.

Looking over a lab setup.

CIVIL ENGINEERING

The name Civil Engineering was originally applied to all types of engineering work not directly connected with military operations. At the present time, Civil Engineering still covers an extremely broad field of engineering endeavor. The Railroad, highway, hydraulic, sanitary, and structural phases of engineering may exemplify the wide and varied applications of the Civil Engineering field. Yet, these general divisions comprise only a portion of the many versatile developments accredited to the title, Civil Engineering.

The field is obviously too extensive to be covered thoroughly in all its divisions in four years. Therefore, the student may, in addition to the fundamentals of Civil Engineering, select special training at the School of Mines and Metallurgy in any of its numerous branches.

Watch that pressure gage.

ERNEST W. CARLTON
Department Chairman

Professor of Civil Engineering 1923, 1936. B.S. in M.E. 1920, M.S. Ind. Ed. 1926, Colorado State U.; B.S. in C.E. 1950, Missouri School of Mines.

Surveying on the campus.

DEPARTMENT

The Civil Engineering Department was one of the first departments on our campus and has kept pace with the increasing enrollment as it is now one of the largest departments at MSM. The greatest number of graduate research students are claimed by this department. These students are employed in the many important research projects being undertaken by the department.

The curriculum in Civil Engineering is designed to afford a thorough training in the fundamental principles upon which the practice of Civil Engineering is founded. It is the aim of the department to prepare its graduates for technical and administrative positions in the promotion, design, construction, operation, and management of engineering projects.

Making a concrete test cylinder.

The phenomenal growth in the electrical Engineering field in recent years has been matched by the expansion of the Electrical Engineering Department at Missouri School of Mines. To follow the development of the electrical field, one has only to check the advances of our Electrical Engineering Department.

Originating as a part of the Physics Department, the Electrical Engineering Department came into its own in 1924 when it was given separate departmental status. In the beginning, the curricula was devoted mainly to electrical power and transmission. A simple knowledge in this field was sufficient to the graduating engineer until the practical applications of electron tubes began to make an appearance. Suddenly the field became so broad that now it can truthfully be said that modern man can hardly perform a single function in his normal routine of living, that is not influenced in some way by the Electrical Engineer. Our drinking water is processed by machines of electrical design; our clothes and furniture are manufactured by electromotive power; our recreation is geared to the pace of television; and our societies' protection is keyed to the electronic eye of radar.

ISRAEL H. LOVETT
Department Chairman

Professor of Electrical Engineering 1921, 1931.
B.S. 1914, M.I.T.; E.E. 1924, Missouri School
of Mines; M.S. 1928, Michigan.

Wiring up a lab problem.

ELECTRICAL ENGINEERING DEPARTMENT

It is not surprising then that with such a broad potential field of activity open before him the Electrical Engineering student finds himself confronted with a Curriculum which is of necessity filled with branches and sub-branches of specialized types of information. Also, training in fundamental principles related to the four main divisions of Electrical Engineering is provided by the curriculum. These may be classified as: manufacturing of electrical equipment, electric power service, communication systems, and electronics.

Within these main divisions of Electrical Engineering, there is a set of basic fundamentals upon which all the branches of the profession are based. The Electrical Engineering curriculum at the Missouri School of Mines comprises a course of study which combines the necessary fundamentals with a desirable set of nontechnical electives to make possible adequate training for entering any branch of the profession.

Above: Taking a scope reading.

Below: A machine lab experiment.

Taking down lab data from meters.

GEOLOGY DEPARTMENT

Geology, the fascinating study of the materials of the earth; fossils, minerals, rocks; their composition, properties, structural arrangement, occurrence and uses, is a broad, diversified field. It includes such subjects as paleontology, stratigraphy, physiography, mineralogy, petrology and economic geology. Although most of the students studying in the Geology Department are taking courses that apply to the other fields of engineering, a straight Geology curricula is presented with advanced courses leading to the degrees of Master of Science and Doctor of Philosophy.

Examining specimen through microscope.

Professor Graw lectures.

Discussing experiment results.

GEOLOGY DEPARTMENT

A broad basic training in the fundamentals of biology, chemistry, physics, and mathematics is required by geology. The growing importance of these basic sciences is apparent as geology is turning from a qualitative science to a quantitative one. A command of the English language as well as a knowledge of basic economics is necessary and desirable since a geologist must translate and communicate his findings to others in more easily understandable terms.

PAUL D. PROCTOR
Department Chairman
Professor of Geology, 1957, B.A.
1942, Utah U. M.A. 1943, Cor-
nell; Ph.D. 1949, Indiana.

Prof. Spreng
examines
lab setup.

MECHANICAL

Mechanical Engineering embraces the sciences of generating, transmitting, and utilizing mechanical power, and the production of tools, machine tools, machinery and their products. In addition to the design, research, development and investigation required to create these services and products, Mechanical Engineering includes the coordination of material, natural resources, manpower and money for effective and economic production.

Specifically, the Mechanical Engineer has nine choices for his occupation after graduation: research, design, development, testing, procurement, production, construction, administration, and teaching com-

Professors Remington, Scofield, Young, and Schowalter.

Welding lab.

Arc welding in the M.E. Lab.

ENGINEERING DEPARTMENT

prise the field. Within the reach of these fields lie vast opportunities for the Mechanical Engineer to help himself by serving others.

Being obviously too extensive to cover thoroughly in all its divisions in four years, the university curriculum for Mechanical Engineering students is therefore perhaps more fundamental and less specialized than other engineering curricula. In many respects, this is greatly to the advantage of the student as it enables him to choose his option later in his college course or to change his professional objective to suit the trend of industrial progress.

AARON J. MILES
Department Chairman

Professor of Mechanical Engineering,
1930, 1943. B.S. 1930, M.S. 1931,
Missouri School of Mines; Sc.D. 1935,
Michigan.

Weighing the condensate from the condenser.

Turbines and condenser in M.E. Lab.

The Met Department, as it is often called, was one of the first departments on campus. Originally, the department's curriculum was primarily centered around the crushing and grinding of ores and extraction of metals, emphasizing practical application. Today, however, the scope of the curriculum offered covers every aspect of metallurgical engineering from the original extractive metallurgy, to physical metallurgy, foundry metallurgy and even a nuclear option in metallurgy. The Met Department is not only one of the first departments established on campus but it is also one of the largest in the United States. The Nuclear Engineering option is offered to combine with metallurgy training the most recent developments in the study of metals and atomic structures.

Polishing a specimen.

Above: Making castings in the foundry.

Below: Performing a laboratory experiment.

METALLURGICAL ENGINEERING DEPARTMENT

A highly specialized laboratory is available for the quite extensive research conducted in the Metallurgy Department. Within the past few years, projects have been completed for the Atomic Energy Commission, the National Science Foundation, and the Air Force. The completion of these programs only opens the door to new advancements, for new projects are being carried out now and soon newer, more radical programs will be started in the future.

ALBERT W. SCHLECHTEN
Department Chairman

Professor of Metallurgical Engineering, 1946, B.S. in Met.
1937, Montana School of Mines; D.Sc. 1940, M.I.T.

Making mold in foundry lab.

METALLURGICAL ENGINEERING DEPARTMENT

MINING ENGINEERING DEPARTMENT

Looking over the drawing.

Mining Engineering Professors

Mining Profs checking equipment.

Mining Engineering is best defined as the application of science to the discovery and exploration of mineral materials in the earth's crust. As the name, Missouri School of Mines, implies, the Mining Engineering Department holds a very important position on campus.

Along with Mining Engineering is Petroleum Engineering, which is concerned with the discovery and exploration of petroleum and natural gas deposits. Both Petroleum and Mining Engineering offer Geology options.

MINING ENGINEERING DEPARTMENT

GEORGE B. CLARK
Department Chairman

Professor of Mining Engineering, 1954.
B.S. 1935, M.S. 1946, University of
Utah; E.M. 1949, Ph.D. 1952, Uni-
versity of Illinois.

To simulate actual conditions, an experimental mine composed of nearly one thousand feet of underground workings, is operated by the students. Petroleum engineering laboratories are equipped with the most modern apparatus for core analysis, mud drilling investigations, and other illustrative petroleum engineering problems.

New and costly equipment.

Checking the lab equipment.

Graduate study and research programs of both fundamental and applied nature are offered by the Department in all the divisions for students who desire to work toward a Master's or Doctor of Philosophy Degree. Mining Engineering, Petroleum Engineering, and their Geology Options offer very fertile fields for advanced study and research.

PHYSICS DEPARTMENT

Physics, one of the most basic of the sciences, deals with energy in all its forms, with the interaction of matter and energy, and with the structure of matter. It is the foundation upon which engineering and technology are built. This elemental science was formerly divided into the fields of mechanics, heat, sound, light, electricity, and magnetism. However, the subject matter of physics has in the past fifty years been augmented by the new field of modern physics which includes: the quantum theory, the theory of relativity, low temperature phenomena, ultrasonics, electronics, microwaves, spectroscopy, molecular and atomic structure, X-rays, cosmic rays, solid state physics, and nuclear physics.

HAROLD Q. FULLER
Department Chairman
Professor of Physics, 1947, A.B.
1928, Wabash; A.M. 1930, Ph.D.
1932, Illinois.

Velocity problem in Physics lab.

Tension test in the lab.

PHYSICS DEPARTMENT

All of these fields, both old and new, are continually expanding; and yet there remain many unanswered questions which serve as starting points for still further investigations. Physics, while it contains much that is old, is forever new.

Every engineering department on campus requires that its students complete ten hours of General Physics and Physics Lab as a basis toward further study in their chosen curriculum. The Physics Department has excellent equipment for the students use and all of the instructors, have at least a masters degree and post masters training. Upon completion of his basic requirements in the Physics Department, the student may consider himself entirely capable of obtaining an engineering degree.

Above: Professors Jensen, Fuller, and Cole. Below: Profs Kassner and Anderson checking equipment.

Profs Schoen and Tipsword, Dr. Pauls.

ENGINEERING DRAWING DEPARTMENT

Often called the "Graphic Language of the Engineer," Engineering Drawing is an important requirement for all who might be connected with or interested in technical industry. This makes it a basic part of the engineering field, worthy of the engineering student's interest and application.

One of the best means of conveying new ideas is through a pictorial or graphical representation. From the blueprint of a Structural Engineer to the wiring diagrams of the Electrical Engineer, drawing acts as a means of design, assembly, and description.

The Department strives to present the underlying principles concerned in drafting work and at the same time to give enough practical drafting work to affix these principles in the student's mind. With this foundation of definite procedure in graphical representations, the student is capable of handling professional drafting work.

Above:

LLOYD C. CHRISTIONSON

Descriptive Geometry, 1946, 1956. B.A.
1925, Westminster; M.A. 1928, M.
Ed., Missouri.

Below: Checking the drawings over.

The student has a problem.

HUMANITIES DEPARTMENT

Known as the Science of Man, Humanities bridges the immense gap between the technical and cultural aspects in man's way of life. It is this facet of learning that completes and brings to full maturity the education of the modern engineering student. Through history, literature, economics, languages, psychology, and accounting, the instructors in the Humanities Department strive to give the engineering student a more practical and cultural outlook on life.

Realizing the tremendous importance of the need for a practical and cultural outlook on life, all departments on campus require at least twelve credit hours of courses in English, six credit hours in Economics, and three credit hours in American History. In this way the engineering student is assured of a more liberal education.

SAMUEL H. LLOYD
Department Chairman

Professor of Economics, 1921, 1946.
A.B. 1918, DePauw; M.S. 1921, Missouri School of Mines.

MATHEMATICS DEPARTMENT

ROLFE M. RANKIN
Department Chairman

Professor of Mathematics, 1922, 1946.
A.B. 1916, Maryville (Tenn.); A.M.
1922, Chicago; B.S. in C.E. 1927, Mis-
souri School of Mines.

Mathematics is truly the backbone of modern engineering study. Without a thorough understanding of the fundamental principles of Mathematics, it would be impossible for the student to meet and cope with the problems of engineering.

A Basic knowledge of Algebra and Trigonometry is implanted in the student before he continues on to the higher forms of Mathematics: Calculus, Analytic Geometry, and Differential Equations. Because math is such an important prerequisite in any engineering, it is stressed to a high degree at the Missouri School of Mines. If it is found that a newly enrolled Freshman, does not have sufficient credits to carry the Freshman math course, he is given a chance to take any one of a number of remedial courses to enhance his knowledge. In this way the student is assured of a solid knowledge of Mathematics.

A necessary and useful portion of every student's curriculum, Mechanics is the science that deals with the effect of forces on bodies. It combines the fundamental theories of mathematics and physics to assist the student in obtaining practical applications to engineering problems. As such, the courses offered by the

MECHANICS DEPARTMENT

ROBERT F. DAVIDSON
Department Chairman

Professor of Mechanics, 1946, 1953.
B.S. in C.E. 1941, M.S. 1949, Miss-
ouri School of Mines.

Bert Smith instructs in Mechanics Lab.

Testing compression stress of spring.

Mechanics Department require a sufficient background in the basic sciences before a student may schedule them. Because of the extreme importance of Mechanics courses, every engineering curricula requires its students to take certain subjects in the Mechanics Department. "Statics" and "Mechanics of Materials" typify

the array of courses. For the students interested in structural design the Department offers advanced courses.

The obvious importance of the Mechanics Department insures all students graduating from the Missouri School of Mines are fully acquainted with the Mechanics Department.

MILITARY DEPARTMENT

Non-commissioned officers.

Passing in review.

Pershing Rifles pass in review.

The Reserve Officer Training unit can be justly proud of its work at the Missouri School of Mines for it not only is the largest R.O.T.C. Engineer Group in the United States, but also one of the highest ranking in the country. In the past year graduates from M.S.M. ranked in the upper third of all engineering cadets in the country.

The course of instruction includes four semesters of basic military training, which is required, and four additional semesters of advanced schooling in military science. If a student completes all eight semesters of military training and is a candidate for a degree, he will be commissioned a Second Lieutenant in the United States Army Reserve.

MILITARY DEPARTMENT

LLOYD L. RALL
Department Chairman
Colonel C. E.

Professor of Military Science and Tac-
tics, 1957; B.S. 1940, Wisconsin.

The major aim of the Military Depart-
ment at the Missouri School of Mines is to
develop in its cadets the qualities of leadership,
initiative, and integrity, while training them as
capable officers ready to take their place in
the Army Corps of Engineers.

Group Officers

The Staff of Officers

At the end of each semester, awards are
given to the outstanding Military students on
the basis of overall grade averages in the de-
partment, knowledge of drill, and test grades.
The awards include not only medals, but also
shoulder braids of different colors.

HERTLEIN, EDWIN F. *Mechanical* Cuba, Mo.
Independents; Curators Award; Honor List; ASME.

HERTZBERG, DONALD H. *Civil* Eldorado Springs, Mo.
Sigma Tau Gamma; Chi Epsilon; Tau Beta Pi; Phi
Kappa Phi; Honor List; Curators Award; Silver Key;
ASCE; Student Council; State Highway Co-op; Student
Assistant in Civil.

HESS, ROBERT M. *Civil* St. Louis, Mo.
Theta Chi, House Manager, President; Prof of Military
Science and Tactics Award; Curators; ROTC Marksman-
ship Award; Red Fourragere; ASCE; MSM Rifle and
Pistol Club, President; Pershing Rifles; Transferred from
Washington University.

HEUTEL, KENNETH *Electrical* Kirkwood, Mo.
Pi Kappa Alpha, Conductor; AIEE; Rollamo Business
Staff.

HIGHLANDER, FRED L. *Mechanical* Livingston, Ill.
ASME; SAE.

HINNERS, LOWELL H. *Electrical* Metropolis, Mo.
Kappa Sigma; AIEE-IRE.

HODGE, ROBERT E. *Electrical* Poplar Bluff, Mo.
Engineer's Club; Independents, Vice-President; Red Four-
ragere; AIEE-IRE; Track; Student Council; St. Pat's
Board; BSU.

HOFER, JOHN G. *Chemical* Normandy, Mo.
Theta Kappa Phi, Steward; Curators Award; Honor List;
Alpha Phi Omega; Blue Key; Alpha Chi Sigma; Alumni
Secretary; AICHE; ROTC Band; Rollamo Board; Newman
Club.

HOFFMAN, GLENN W. *Chemical* St. Louis, Mo.
Lambda Chi Alpha; Phi Kappa Phi; Gold Key Award; Superior Cadet Ribbon; Sophomore Award; Enoch Needles Speech Award; Honor List; Armed Forces Chemical Award; Special Education Scholarship; Atlas Powder Co. Award; Alpha Phi Omega; Alpha Chi Sigma; AICHe, Secretary; MSM Stamp Club, President; BSU.

HOGAN, DANIEL J. *Mining-Geology* Plainfield, Ill.
Independents; Prospectors Club; Glee Club Key and Bar Award; Honor List; AIME; Glee Club, Treasurer; Transferred from Joliet Junior College; Student Assistant in Mining.

HOLLENBERG, ROBERT L. *Civil* Affton, Mo.
Pi Kappa Alpha; SAE; Pershing Rifles; Rollamo.

HOOD, EDWARD S. *Mechanical* Essex, Mo.
Shamrock; Independents; Honor List.

HOPKINS, VAUGHN D. *Physics* Lincoln, Mo.
Dorm Council; Sigma Pi Sigma; Phi Kappa Phi; International Nickle Scholarship; Honor List; SAE; Spelunkers; Transferred from Central Missouri State College; Student Assistant in Physics.

HORD, WILLIAM E. *Electrical* Warsaw, Ill.
Independents; Shamrock; Eta Kappa Nu; Phi Kappa Phi; Tau Beta Pi; Honor List; Gold Key Award; Phi Kappa Phi Book Plate; AIEE-IRE, Secretary; Student Assistant at Buildings and Grounds.

HORNSEY, EDWARD E. *Mining* Potosi, Mo.
Tech Club; Independents; Sigma Gamma Epsilon; Phi Kappa Phi; Tau Beta Pi; Gold Key Award; Honor List; St. Joseph Lead Scholarship; Phi Kappa Phi Book Plate; AIME; Pershing Rifles; Newman Club.

HORNUNG, THOMAS C. *Electrical* St. Louis, Mo.
Engineers Club; Honor List; AIEE-IRE; Rifle Club; Glee Club; Student Assistant in Television Committee.

HOUSTON, BERT D. *Petroleum* Granite City, Ill.
Triangle, Vice-President, President; AIME.

HOWARD, FREDERICK D. *Electrical* Montgomery City, Mo.
Kappa Alpha; Honor List; AIEE-IRE; Glee Club.

OVERALL, WILSON W. *Electrical* Farmington, Mo.
AIEE-IRE; Radio Club, Treasurer; Transferred from College of Flat River.

PADBERG, DONULUS, J. *Metallurgy* St. Louis, Mo.
Tau Beta Pi; Alpha Sigma Mu; Women's Auxiliary AIME Scholarship; Honor List, Phi Kappa Phi Book Plate; Kennescott Cooper Co. Scholarship; AFS; AIME; St. Louis University.

PARILLE, DONALD RICHARD *Metallurgy* Danbury, Conn.
Independents; Prospectors Club; Alpha Chi Sigma; Phi Kappa Phi Book Plate; Honor List; Glee Club Key Award and Bar Award; Foundry Education Foundation Scholarship; AICHE; AIME; Glee Club; Newman Club.

PARKER, RAY A. *Metallurgy* Bartlesville, Okla.
Sigma Nu; Football; Track; "M" Club; St. Pat's Board; Student Council; Student Assistant in Athletic Dept.

PARSONS, RONALD D. *Mechanical* Kansas City, Mo.
ASME; Student Assistant in ME Department.

PASLEY, JOHN L. *Civil* Jefferson City, Mo.
Lambda Chi; Honor List; APO; AIEE-IRE; ASCE; Radio Club; ROTC Band.

PATE, HENRY A. *Civil* San Antonio, Texas
Chi Epsilon; Honor List; ASCE; Canterbury Club.

PATTERSON, JAMES M. *Electrical* St. Louis, Mo.
Engineer's Club; AIEE; Glee Club; BSU; Transferred from Harris Teachers College.

PATTON, WILLIAM B., JR. *Petroleum* St. Louis, Mo.
Tech Club; Engineer's Club; AIME; Golf, 1 letter; SAME.

PAWLOWSKI, ALEXANDER *Mechanical* South River, N.J.
Sigma Phi Epsilon; SAE; ASME; Photo Club; Student Council.

1959

PAYNTON, JAN *Civil* Stanton, Mo.
Prospectors Club; Tau Beta Pi; Phi Kappa Phi; Honor List; Phi Kappa Phi Book Plate; Silver Key Award; Chi Epsilon; ASCE; Pershing Rifles; Red Fouragere Award; State Highway Co-op.

PELHANK, DANIEL A. *Electrical* Alton, Ill.
AIEE-IRE, Eta Kappa Nu.

PENNING, THOMAS F. *Mechanical* Alton, Ill.
Tech Club; Independents.

PEPMILLER, PAUL E. *Electrical* E. Prairie, Mo.
Honor List; Eta Kappa Nu; Transferred from Southwest Missouri State College.

PFISTERER, ROBERT T. *Chemical* Joplin, Mo.
Sigma Nu; Honor List; AICHE; Newman Club; Transferred from Joplin Junior College; Student Assistant, Chemical.

PITLYK, JAMES O. *Mechanical* St. Louis, Mo.
Theta Kappa Phi, Steward, Pledgemaster; SAE; ASME; Rollamo Board.

PLANK, ROBERT D. *Civil* Ozark, Mo.
Honor List; ASCE; Drury College.

POHLMAN, DAVID S. *Electrical* Overland, Mo.
Tau Kappa Epsilon; Alpha Phi Omega; AIEE-IRE.

POLLARD, CHARLES E. *Civil* Rolla, Mo.
Shamrock Club; Honor List; ASCE.

POND, NORMAN H. *Physics* West Plains, Mo.
Engineer's Club; Phi Kappa Phi; Tau Beta Pi, Vice-President; Honor List; Gold Key Award; Phi Kappa Phi Book Plate; Sigma Pi Sigma, Secretary; Student Assistant, Physics.

BULLMAN, GALE — Department Chairman
 Professor of Physical Education, 1937, 1949.
 A.B., 1925, West Virginia Wesleyan; LL.B.,
 1929, Washington.

Since 1936, Gale Bullman has been controlling the Miner gridiron and has been doing a superb job. All of the numerous M.S.M. victories are accountable to his terrific coaching ability. An All-American and pro football player himself also add to his outstanding record.

VAN NOSTRAND, BURR ROGER, Instructor in Physical Education, 1953. B.S., 1942, Southwest Missouri State; M.Ed., 1952, Missouri.

ATHLETIC

Burr has compiled quite a record for himself since his arrival at M.S.M. When he started in 1953, the job of swimming coach was a new one to him. However, he has produced some of the best Miner swimming teams through his drive and determination.

DEPARTMENT

With eight years of experience of coaching the basketball squads, Dewey has attained a great name on the campus as a coach. By his sincere interest in his teams, he has ably coached the Miners not only in the won and lost columns, but also in sportsmanship as well.

ALLGOOD, DEWEY, JR., Associate Professor in Physical Education, 1950. B.S., 1947, North Dakota State; M.A., 1949, Colorado State.

FOOTBALL

Looking over the situation.

This year's gridiron season was opened on home grounds for the Miners. The first game was against the North-east Oklahoma Redman from Tahlequah, Oklahoma. The Miners played very good in their first combat, but they were unable to score a touchdown against the powerful Redman. Ray Parker, however, succeeded in kicking a field goal and scoring the first Miner points of the season. The Miners were defeated 20 - 3 in the hard fought battle.

The Rolla gridders then moved to Jefferson City to play the high rated Lincoln team. The Rollamen, being the underdog, tried hard to hold back their opponents, but the highly favored Lincoln team shutout the Miners in a 46 - 0 beating and handed them their second loss of the season.

First Row, Left to Right: Meisenheimer, Gay, McCaw, Booth, Sullivan, Rose, Parker, Ingram, Whitehair, Marble, Cooper, Kamicar, Metcalf, Jobe. *Second Row:* O'Mealy, Kennedy, Moss, Muschany, Early, Avery, Peterson, Cooke, Hillmeyer, Wells,

Meier, Kruger. *Third Row:* Rhineberger, Sprenkle, Skow, House, Stoner, Sidwell, Teske, Smith, Verdi, Wiegard, Finley. *Fourth Row:* Cage, Farmer, Bergener, Boswell, Tooke, Berry, Schroeder, Sharp, Deranja, Usher, Kandlbinder.

FOOTBALL

Grabbing a pass.

No more yardage.

The next week the Miners traveled to St. Louis to play their annual game with the Washington University Bears. The Rolla boys, having started their season with two defeats, were determined to romp their traditional rivals. The Rollians controlled the ball most of the first half of play, but were losing at half time 12-7. In the second half the Miners retaliated with a touchdown and then led 13-12. Dub Wheeler was injured and this hindered the Miners passing offensive. The Bears, having Lady Luck on their side, intercepted a handoff and ran for a touchdown that defeated the Miners 19-13 and gave them their third straight loss.

Bullman's boys then clashed with the Pittsburg Gorillas at Pittsburg, Kansas. This undoubtedly was the most exciting game of the year for the Miner fans. The teams were evenly matched and controlled the ball equally.

After the receiver.

Who has the ball?

With just a few minutes remaining in the game, the Miners were trailing 21-19. The Rollamen gained possession of the ball and drove towards the Gorilla's end zone. Time at a scarcity, the Miners decided to try for a field goal.

Pat O'Mealy punted the ball through the goal posts to snatch a 22-21 decision over the Gorillas.

The Miners returned to home grounds again to start their M.I.A.A. Conference play.

Bring him down!

FOOTBALL

The first conference game was against the Warrensburg Mules. The Mules weren't very stubborn in their defense, and Ray Parker and Dub Wheeler led the Miner offense on to walk off with a 27 - 13 victory and a good start towards the conference championship.

For their second conference game, the Miners traveled to Cape to play their biggest opponents and last year's M.I.A.A. champs the Cape Indians. The Miners were anxious to defeat this team because by doing this they could practically consider the conference won. The Indians, however, had the same idea of winning and their offense on the warpath, overpowered the Miners and scalped them in a 19 - 7 loss.

Long pass!

Fingertip catch.

Miners	36	*Springfield	19

**Conference Games*

FOOTBALL

The Parents Day game was played against the Kirksville Bulldogs for the Miners third conference game. The Miners put on a good show for all the parents and relatives visiting the campus. The Bulldogs had a tricky and fast offense, but the strong Miner defense held them long enough to let the Rolla offense, spurred by Dub Wheeler's passing, roll on to capture the game in a 27 - 20 victory.

The Homecoming game was played against the Maryville Bearcats. The game was a great thrill to all the alumni who enjoyed watching their Alma Mater march over the Bearcats. The Rollians had the ball in their possession most of the time. Maryville did not prove to be a big scoring threat to the strong Miner team and as a result were defeated 20 - 7.

Long pass completed.

We were robbed

The fullback through the line.

The final conference game and final game of the season was played against the Southwest State Bears of Springfield. The Miners superior playing dominated the game. The final score showed another Miner victory 36 - 19.

For the second year in a row, Ray Parker was named to the first all-conference team. Along with him this year were Tom Cooper, Dub Wheeler, and Bob Ingram. On the second all-conference team were Jerry Metcalf and Lou Meisenheimer.

Gaining yardage.

BASKETBALL

Left to Right: Dix, Hoevelman, Lewis, Sturm, Shaffer, Brenning, Rockwell.

The Miners started their season on their own hardwood this year against the fast and tricky Lincoln team of Jefferson City, Mo. on Dec. 2nd. The Miner squad was a little rusty on their passes and their shots. Lincoln controlled the ball and the boards most of the game, and the Miners couldn't score enough points to stay up with them. The final score was Lincoln 79 - MSM 55. That weekend the Rolla bucketmen travelled to Carlinville, Illinois to play Blackburn College. The Rolla defense held back the Blackburn fast break attempts and connected on their own offensive plays. The Miners easily won a score of 90 - 74.

The Miners returned to their own court once again to play Southern Illinois University. The team played a good game both on offense

BASKETBALL

Looks like a basket

and defense, but they were outclassed by the powerful SIU team and took another beating. SIU netted 94 points to the Miner's 72. The Greenville College Panthers were the next guests of the MSM quintet. The Miner scoring was led by John Sturm, the high point man of the game. The Rollians made this their highest scoring game and first home court victory of the season. The Panthers left defeated by a score of 96 - 67. Having tasted Victory on the home grounds and the Miner five working in close harmony, the team greeted the Harris Teachers College of St. Louis, Mo. in Rolla and then sent them home defeated. Final score 73 - 63.

The next game was played against Westminster College in Fulton, Mo. The Fulton squad deflated the Miners' spirit and ego by more than doubling the Miners' 41 points with their 84. The Rollamen returned home defeated, but determined to make the still young season a victorious one. The next

BASKETBALL

No room for a shot

opponent was the Martin Branch of the University of Tennessee. The game was fast, close, and exciting, but the outcome found the Miners again the loser on their own hardwood. Final score UT 79 and MSM 74. On Dec. 20th the roundballers travelled to St. Louis to play Washington University. The Miners played heads up ball, but were off on their shots. The Bears defeated the Miners 60 - 53.

The MSM squad was idle over the Christmas holidays and resumed play on Jan. 7th in Jefferson City. The bucketmen gave Lincoln a harder game this time but still couldn't put the ball through the net more times than Lincoln did and as a result were handed a 98 - 81 loss.

On Jan. 10 the Miners started their MIAA Conference play in Rolla against the Warrensburg Mules. The Miners began the season right by nosing out the Mules 68 - 66 in a real thriller. The second conference game was against the Springfield Bears in Springfield. The Miners suffered a bad beating and lost by a 28 point margin in the 85 - 57 contest.

The MSM quintet's last non-conference game was against

BASKETBALL

Washington University of St. Louis. This was the Miners' second chance to beat the Bears. The game was a see-saw the whole time with one team on top and then the other. With one minute left to go the Miners led by one point and tried to stall, but Wash. U. stole the ball with 8 seconds left and dumped in the tally to win 52-51.

The Miners resuming their conference play journeyed to Maryville to play the Maryville Bearcats. The MSM-five had the same old trouble and couldn't score enough points and were dropped to a 71-49 defeat. The next day the Miners moved on to Kirksville. The Rollians gave the Bulldogs a good run for their money but

A long shot for Sturm.

Blocking up the key hole.

BASKETBALL

tired too soon because of the game the night before. Kirksville emerged the victor 88-71.

The next game Springfield was the guest on the MSM floor. The Bears made a repeat performance of the first game against the Miners only this time they beat them worse 89-51.

On Feb. 10 the Miners' opponent was the Cape Indians in Cape Girardeau. The Indians also placed another defeat on the down trodden Miners in a 77-63 battle. Maryville then became the visitors of the Miners and repeated their earlier performance of the season and trounced the Miners again 56-49. The Roundballers took to the road once more

Going up underneath the basket

and went to Warrensburg. The Miners made a repeat themselves and nudged out the Mules again by two points. The final score Rolla 76 Warrensburg 74. Cape then grabbed its second win from the Miners on Feb. 21 by a 91-78 margin. Kirksville followed Cape to the MSM campus and returned home a victor over the Miners for the second time. The 95-76 defeat by Kirksville wrapped up the Miners' season for another year.

John Sturm was the highest scorer in the Conference for the second straight year and was picked on the All-Conference team.

418½		352½

First Row, Left to Right: Peterson, Staley, Woodward, Farnham, Greely. Second Row: Catron, Smith, Broyles, Phillips, Bruns, Wallace.

SWIMMING

This year's swimming team under the excellent coaching of Burr Van Nostrand had a very successful season. The team compiled six victories and suffered only three losses. The team captured all four meets swam at home and took two of the five away. They beat Fort Hayes State, Louisville U., Indiana State and Westminster here. They won over St. Louis U. and Illinois Normal U. and lost to Washington U., SIU and Pittsburg State on the road.

Two new pool and MSM records were set this year by the team. Roy B. Smith, Richard Greeley, Gary Broyles and John Woodward set the new 400 yd. Freestyle Relay record at 3:47.9, and James Phillips set the new 200 yd. Backstroke record at 2:28.5

Gary Broyles, a sophomore, was high point man of the team this year. He racked up 80 points in nine meets. Gary swam in competition last year for the first time of his life and in one year's time has become the top swimmer of the school. Jim Phillips was second highest with 66.5 points and Roy B. Smith third with 43.

A.S.M.E.

The American Society of Mechanical Engineers is composed of both graduate and student mechanical engineers. The chief function of the society is to act as a link between the student and the practicing engineer.

The beneficial knowledge gained through this organization helps widen the scope and complement the knowledge gained in the classroom. This broad program is carried out through prominent guest speakers at the meetings and numerous field trips taken throughout the year.

The extensive membership is a benefit to the professional engineer as well as to the undergraduate in widening social and business contacts.

PI TAU SIGMA

Since its establishment on the MSM campus in 1955, this National Honorary Mechanical Engineering Fraternity has done much to merit considerable recognition. Members are selected from the upper third of the senior class and from the upper fourth of the junior class.

The object of the fraternity is to foster the high ideals of the engineering profession, to stimulate interest in scholarship, to promote the mutual professional welfare of its members, and to develop in mechanical engineering students the attributes necessary for effective leadership and responsibility.

ETA KAPPA NU

Eta Kappa Nu is an honor society of outstanding Electrical Engineers, who by their accomplishments in college have shown a superior ability. The order was founded in 1904 at the University of Illinois. Since that time its growth has paralleled that of the rapidly expanding electrical industry.

Here at MSM, the purpose of the organization has not only been to recognize high scholastic ability, but to stimulate interest in school and community activities. Their efforts and activities have brought them national recognition.

A.F.S.

The student chapter of the American Foundrymen's Society, located here at MSM, is the second oldest national student chapter. Through the assistance of the Foundry Educational Foundation, part of the St. Louis chapter, eighteen scholarships are available to undergraduates interested in foundry work. These fine scholarships are available mainly to metallurgical and mechanical engineers, although all students in the technical field are eligible.

At their monthly meetings, noted speakers discuss recent developments and advancements in related foundry subjects. Often these talks are accompanied by an actual demonstration in the laboratory. In carrying out such a program, the society provides an insight as to what they may expect of industry and what industry may expect of them.

A.S.M.

The American Society for Metals is a national engineering organization recognized as the major Metallurgical Engineering professional society in America. The main function and purpose of the society, since its inception of the local chapter in 1937, is to unite the students with a common interest and to supplement their education. This program is carried out at monthly meetings where noted guest speakers appear, movies are shown, and field trips and other business is handled.

Another function of the society is to provide an access to innumerable technical books and reference material. In keeping with their principle of good scholarship stimulation, the ASM awards a scholarship each year to a junior enrolled in Metallurgical Engineering.

A.I.M.E.

METALLURGY SECTION

As more and more alloys are introduced for commercial use and more stringent specifications are required, the metallurgical engineer must be prepared to keep abreast of current developments. His membership in AIME, MET section, facilitates this ability by making available information and numerous publications. In the student section, this method is enhanced by various speakers and programs.

First Row, Left to Right: Washburn, Steele. Second Row: Marchbanks, Basben.

MINING SECTION

The mining section of the student branch of AIME strives to further the interests and education of material relating to exploitation of mineral deposits. The association provides professional advice needed to have a practical knowledge of the field. The student branch provides an opportunity to show his abilities, thereby gaining recognition in the Mining Engineering profession.

First Row, Left to Right: Kieffer. Second Row: Stelloh, Hornsey.

PETROLEUM SECTION

The petroleum section of AIME has the crutch of experience to offer to all those students wishing membership. Technical discussions and papers are distributed which help keep students abreast of what is happening in the field and research laboratory. Discussions and literature aid in orientation and guidance of the student during his formal education.

First Row, Left to Right: Parks, Patterson. Second Row: Waddell, McNally.

SIGMA GAMMA EPSILON

First Row, Left to Right: Reesman, Stelleh, Owens, Planje, Jones. Second Row: Hornsey, Fowler, Lorey.

OFFICERS
First Row, Left to Right: Planje, Owens. Second Row: Stelleh, Jones, Reesman.

Sigma Gamma Epsilon is a national honorary fraternity composed of members whose field of study concerns the earth's crust. Membership is open here at MSM to ceramics, geology, metallurgy, mining, and petroleum engineering.

Advancement in scholarship, friendship, and faculty relations are the chief objectives of the organization. It schedules interesting speakers, programs, and field trips during the year.

Each year it presents the W. A. Tarr Award to the outstanding graduating senior on the basis of extra-curricular activities and high scholarship.

SIGMA PI SIGMA

Sigma Pi Sigma is the only physics honor society of national scope and the student chapter at MSM is one of the most active of the many chapters chartered.

Only those students and graduate students who demonstrate high scholarship and promise of professional accomplishment are elected to its membership from physics and closely related sciences.

Sigma Pi Sigma strives to provide an interest in advancement of scholarship and extra-curricular activities, and to promote friendship among the advanced students.

OFFICERS

First Row, Left to Right: Cochran, Pauls. Second Row: Arimura, Pond.

First Row, Left to Right: Adam, Green, Pauls, Cochran, Pond, Hopkins, Arimura. Second Row: Neumeier, Garlich, Bass, Baker, Hughes, Rusche, Jones.

First Row, Left to Right: Ingle, Gilmore, Paynton, Fuller, Griglione, Roberts, Henson, Kruger, Williams, Mathews, Burke.
Second Row: Volker, Craig, Kurz, Fouraker, Niedringhrus, Martin, Kurz, Dickens, Lettmann, Hahs, Dell, Dischner, Blackwell.
Third Row: Tharp, Smith, Plassman, Boss, Cox, Frey, Reichert, Wright, Logsdon, Klebba, Cornell, Deddens, Bayless,

Boston. *Fourth Row:* Carver, Conley, Bruegging, Sisk, Sands, Oberhaus, Achelpohl, Halbrook, Teske, Feaster, Gunn, Taylor, Popp, Martin. *Fifth Row:* Gilbert, Kennedy, Fisher, Rizer, Owens, Musgrove, Henderson, Reuter, Simpson, Hall, Harener, Wade, Bierman, Odendahl.

A.S.C.E.

The Missouri School of Mines and Metallurgy student chapter of the American Society of Civil Engineers holds frequent meetings to bring to its members practical knowledge of civil engineering through the media of speakers and lecturers, movies and discussions, and trips into the field. Another valuable asset gained by its members is the professional contact made with industry through membership in this engineering society. Membership in ASCE makes available the papers and publications on civil engineering in regard to recent developments and discoveries. These publications are necessary for graduate engineers as well as for students to stay abreast of the time and to stay well-informed.

OFFICERS

First Row, Left to Right: Griglione, Roberts, Henson.
Second Row: Fuller, Kruger.

CHI EPSILON

Chi Epsilon, National Honorary Fraternity of Civil Engineering, was founded at the University of Illinois in 1922. Since its founding on the Missouri School of Mines campus, this honorary fraternity has grown to command respect and admiration.

It is the purpose of this organization to recognize high potential and scholarship so

necessary to successful engineers and to aid in development of these characteristics in the undergraduate.

Chi Epsilon chooses its members from the upper one-third of the junior and senior classes. They are also considered on the basis of character and activities on the campus.

First Row, Left to Right: Gilmore, Paynton, Dickens, Boston, Volker, Wright, Feaster, Hall, Kruger. Second Row: Fisher, Hertzberg, Bruegging, Reichert, Halbrook, Bayless, Odendahl, Gunn. Third Row: Ingle, Henson, McHugh, Fuller, Taylor, Cain, Tharp, Rizer. Fourth Row: Logsdon, Roberts, Carver, Kennedy, Henderson, Simpson, Popp, Williams.

First Row, Left to Right: Volker, Wright, Feaster. Second Row: Hall, Boston, Dickens. Third Row: Gilmore, Fuller, Paynton.

First Row, Left to Right: Minton, Onn, Houseman, Taliaferro, Stevenson, Hankinson, Christian, Hughes, Powell. *Second Row:* Lay, Patterson, Stone, Chappell, Fritchey, Hibberd, Edwards, Oberlander, Magre. *Third Row:* Crow, Wiles, Coyle, Poarch, Lawhon,

James, Brown, Hofer, Dille, Harris. *Fourth Row:* Wood, Redington, Graves, Mitchell, Haseltine, Cole, West, Hoffman, Keeler, Davis. *Fifth Row:* Wright, Rouse, Roth, Kuhlmann, Ziegerer, Cebe, Snavelly, Bartholic, Janes.

OFFICERS

First Row, Left to Right: Hankinson, Stevenson, Hughes.
Second Row: Houseman, Taliaferro.

A.I. CH. E.

Since its chartering in 1939, the growth and activity of this student branch of the American Institute of Chemical Engineers has been ever increasing. This organization provides opportunities for the professional development of students enrolled in Chemical Engineering, enabling them to hear and to meet outstanding professional men from industry and to learn what is expected of them after graduation.

Membership requires only that the student be enrolled in the Chemical Engineering department. This membership in AIChE entitles a student access to publications and data concerning recent developments and topics of interest.

ALPHA CHI SIGMA

Founded in 1937, the Beta Delta Chapter of Alpha Chi Sigma fraternity takes an active part in the aid and development of future chemists. Functioning as a professional fraternity, a pledge class is initiated each semester and bi-monthly meetings are held.

The objectives of the fraternity are to bind its members with a true and lasting friendship, to strive for the advancement of chemistry both as a science and as a profession, and to aid its members by every honorable means in attainment of their ambitions as chemists throughout their careers. Through these ideals and progressive leadership, Alpha Chi Sigma has grown to become one of the largest campus organizations.

OFFICERS

First Row, Left to Right: Hughes, Edwards, Donaldson.
Second Row: Powell, Graves, Lawhon. *Third Row:* Patterson, Wood, Hofer.

First Row, Left to Right: Patterson, Donaldson, Minton, Graves, Edwards, Powell, Wood, Hofer, Chirstian. *Second Row:* Stevenson, Hughes, Weber, Chappell, Grannemann, Hibberd, Oberlander, Hoffman, Harris. *Third Row:* Taliaferro, Lawhon, James,

Crow, Poarch, Stone, Tims, Magre, Dille, Mollins. *Fourth Row:* Davis, Redington, Haseltine, Rouse, Pope, Kuhlmann, Early, Gay, Mayer, Hankinson.

A.C.S.

OFFICERS

First Row, Left to Right: Planje, Mitchell, Rusert. Second Row: Phillips, Hunter.

The American Ceramic Society is a national organization dedicated to the promotion of science and engineering as related to ceramics and its allied industry.

The MSM student branch of ACS was formed by and for the students in the Ceramic Department in 1937. Monthly meetings are held, at which time prominent men from the ceramic field present timely, informative lectures and motion pictures covering the entire field from brick and glass to rocket nozzles, transistors, and missile nose cones.

The members also make field trips to various ceramic plants and operations throughout Missouri, which is the major area of the ceramic industry in the country. By these firsthand inspections of practical applications, the student gains a material insight into the field, not otherwise obtained in the classroom or laboratory. Thus, his knowledge is broadened, his comprehension is increased and his goal is pulled closer.

KERAMOS

Keramos, a national honorary fraternity open to outstanding students in Ceramic Engineering and Science, was established on the MSM Campus July 26, 1947. Its principal objectives are to promote and to emphasize scholarship and character in the thoughts of ceramic students, to stimulate mental achievement, and to promote interest in Ceramic Art, technology, and engineering. As secondary objectives, it seeks to bind more closely to the school its alumni and to furnish an additional tie of college friendship.

The student members of this organization are chosen on their records of scholarship, character, and promise of success in the ceramic field.

OFFICERS

First Row, Left to Right: Lorey, Rusert, Mitchell. Second Row: Phillips, Frossard, Hunter.

First Row, Left to Right: Hunter, Phillips, Rusert, Mitchell, Lorey. Second Row: Frossard, Elrod, Bittencourt, Planje.

PERSHING RIFLES

Third Row: Erwin, Payton, Erwin, Shorwell, Achenbach, Giratos, Valentine, Holland, Williams, Cook, Martin, Lazaras, Lazaras, Butler. Fourth Row: Church, Dowdy, Short, Cornell, Musgrove, Toma, Stack, Fehsenfeld, Jones, Sherman, Hatfield, McCormick, Troxel, McKean. Fifth Row: Martin, McCuue, Guest, Duell, Schnitket, Mundy, Mohapp, Dodson, Sturgeon, Rollins, Crockett, Hansen.

OFFICERS

First Row, Left to Right: Gaede, Rogers, Kinder. Second Row: Vansant, Kimbrough, Peautsch. Third Row: Tracy, Barrand, Evans.

Pershing Rifles is a national organization of R.O.T.C. college students. It is a fraternal organization and a student must pledge for one semester before becoming an active member. The P R's seek to develop those traits of character and leadership essential to success in both military and civilian life. In addition, Pershing Rifles presents a valuable background in military training for the years which its members have yet to spend in the service of our country. Company K-7, Seventh Regiment, was founded at MSM in the spring of 1949 by a local group of military students named the Detonators.

S.A.M.E.

The Society of American Military Engineers, founded during World War II, is composed of engineers, both civilian and military, who believe that it is their duty to preserve the lessons of the past as a guide for the future and to save the nation from the spirit of indifference into which it has fallen after every major encounter.

Student posts of the society are designed to acquaint the student with the national organization and to create an interest in the engineering profession. The MSM chapter has been active in the revival of the Military Ball and has provided displays for Engineer's Day and Parent's Day.

First Row, Left to Right: Dickey, Ziegerer, Bomar, Bell, Pfautsch, Sherman, Kuhlman, Schenck, Dunnavant, Magre, Hunter. *Second Row:* Van Zante, Grizio, Martin, McCune, Starwalt, King, Wallace, Valentine, Troxel, Mielke, McKean, Basey, Kleffman. *Third Row:* Rollins, Ford, House, Cornell, Musgrove, Carver, Maune, Dodson, Jones, Gaertner, Gaede. *Fourth Row:* Kinder, Smith, Davis, Carter, Carter, Toma, McCormick.

OFFICERS

First Row, Left to Right: Pfautsch, Bell, Carver. *Second Row:* Sherman, Grizio, Kleffman.

First Row, Left to Right: Koreny, Murphy, Wells, Gregson, Moulder, Linn, Kuhlmann, Stevenson. Second Row: Smith, Bowers, Gunther, Wheeler, Booth, Marble, Stammer. Third

Row: Jackson, Brown, Becker, Steinmann, Moss, Gerhart, Siesennop, Nolfo. Fourth Row: Hodge, Schneider, Meadows, Baumgartner, Parker, Kirk, Mielke.

ST. PAT'S BOARD

The St. Pat's Board, probably the most active organization on campus, is composed of two members from each fraternity and from several independent members. Each member serves a two year term and the terms expire alternately. In this way each member serves as a junior member and then as a senior member the following year.

In order to raise sufficient funds for St. Pat's the Board holds benefit movies and sponsors the Homecoming Dance in the fall. In this way, the board functions all year to make the celebration in March an event to be long remembered. Then, in March, this celebration, in honor of the Engineers' patron saint, is the social event of the year.

This year, Ralph Marterie's orchestra furnished the music for Friday's Costume Ball and for Saturday night's formal dance. Also this year found Mr. Brud Murphy, of Tau Kappa Epsilon Fraternity, elected as St. Patrick of 1959.

OFFICERS
First Row, Left to Right: Wells. Second Row: Gregson, Murphy.

INTERFRATERNITY COUNCIL

The Interfraternity Council is composed of thirty members representing the fifteen social fraternities located on the Missouri School of Mines campus. Each year from each fraternity, a member is selected to serve a two year team. In this way each house is repre-

sented by a junior and senior member.

The chief function of the council is to promote friendly relations and to promote harmony among the fraternities, student body, and faculty. Another function is to sponsor joint function such as Greek Day and others.

First Row, Left to Right: Elrod, Rath, Moulder, Fox, Maisak, Second Row: Haque, Stewart, Echelmeier, Anderson, Grizio,

Beuerlein. Third Row: Peterson, Marble, Woley, Childress, Hoffmann, Alyea.

Representing all fraternities is the National Interfraternity Council which was founded in New York in 1909. It is composed of prominent fraternity leaders and college representatives who meet annually in New York for a conference. Here problems confronting the fraternity system and other important topics are settled with intelligent deliberation.

OFFICERS

First Row, Left to Right: Rath, Maisak. Second Row: Fox, Elrod.

First Row, Left to Right: Stelloh, Merryfield, Wells, Hodge, Simko, Reeves, Burke. Second Row: Hertzberg, Smith, Marlow,

Boston, Cooper, Feaster, Wagenheim. Third Row: Stoecker, Booth, Robertson, Croci, Gay, Reichert.

OFFICERS

First Row, Left to Right: Hodge, Wells. Second Row: Simko.

STUDENT COUNCIL

The Student Council is the voice of the MSM campus and the council takes an active part in student affairs and government. Since its founding in 1937, the student council has worked to benefit the student body in many projects. One of the major projects was the effort to stimulate proper authorities when the students expressed their desire for a Student Union. This goal has come true as the Union will open with the fall term next year. It is through leadership and keen interest that the Student Council has accomplished such goals as these.

Membership is open to all students enrolled and is not limited to any single group. Various independent organizations as well as each social fraternity elect one member and an alternate to a two year term. By using this junior-senior method, the student council functions efficiently at all times.

M.S.M. BAND

The Missouri School of Mines—R.O.T.C. Band is jointly sponsored by the school and the R.O.T.C. Department. This year, under the direction of Professor J. W. Robbins, the band gave a Christmas concert and played a joint concert with Lincoln University. In addition, the band played for all the R.O.T.C. dress parades, the Baccalaureate ceremony and the Commencement exercise.

The members of the band need not be participating in the R.O.T.C. program, for this membership is open to any musically inclined student. The instruments are furnished free of charge for the students, and at the end of the school year, the members are given twenty-five dollars for each semester.

OFFICERS

First Row, Left to Right: Leighty, Dille. Robbins, Underwood. Second Row:

First Row, Left to Right: Leitner, Underwood, Robbins, Leighty, Ellicott, Rall, Dille, Elser, Hughes, Cross. Second Row: Richardson, Trippensee, Burlage, Wolf, Rothwell, Burghard, Gordon, Christeffel, Lynch, Williams, Ege, Peck, Close, Maksymicz, Copher, Joerling, Walter. Third Row: Mathews, Miers, Her-

mann, Alt, Brewer, Huff, Loyd, Martin, Trabue, Thurman, Grotepeter, Stevenson, Folkert, Corrigan, Mitchem. Fourth Row: Peterson, Maddox, Bounds, Mitchum, McCluskey, Darnall, Childress, Carter, Hallerberg, Stacy, Boje, Wagner, Raney, Hertel, Moore, Smith.

First Row, Left to Right: Burlage, Robbins, Underwood, Leighty, Copher. Second Row: Rothwell, Mathews, Maddox, Lynch, Peck.

OFFICERS

First Row, Left to Right: Underwood. Second Row: Robbins, Lynch.

KAPPA KAPPA

PSI

Delta Gamma Chapter of Kappa Kappa Psi, national honorary band fraternity, was chartered on the MSM campus March 9, 1958. Its members are drawn from the Missouri School of Mines—R.O.T.C. band, and are selected for their musical ability and participation in band activities. Under the leadership of Professor James William Robbins, Kappa Kappa Psi has risen to compete with the other honorary fraternities on the MSM campus.

Each year the members of Kappa Kappa Psi choose one outstanding member of the band to receive the John Philip Sousa Award. This award has long been a mode of stimulation beneficial to the welfare of the band.

ALPHA PHI OMEGA

The Beta Omicron chapter of Alpha Phi Omega, a national service fraternity, was granted a charter in March, 1939. APO consists of students who, at some time, were active in scouting and who have average scholarship or better. The purpose of Alpha Phi Omega is to assemble college men in the Scout Oath and Law, to develop friendship, and to promote service to humanity.

The purposes of the organization are carried out in a four-fold program. It consists of service to the student body, faculty, members, and service to the nation. In carrying out this program, the APO has long been noted for many worthwhile annual projects undertaken, such as the blood drive, book exchange, and desk blotter provision.

First Row, Left to Right: Ford, Abkemeier, Peterson, Burke, Lodholz, Schwenk, Shelton, Taylor, Johnson. Second Row: Cox, Brockhaus, Qualls, Blechner, Gunther, Klein, Burlage, Ventimiglia, Silverberg. Third Row: Tooke, Benz, Rephlo,

OFFICERS

First Row, Left to Right: Wright, Kruger, Ryter. Second Row: Alyea, Colandrea, Rephlo.

Blue Key National Honor Fraternity was but nine years old when it established a chapter on the MSM campus in 1933. Since that time it has grown to a place of respect and has grown to be a goal of personal attainment on the part of the students. It draws its members from men who have demonstrated good character, high scholarship, and outstanding leadership.

Blue Key is identified yearly with projects such as the student directory publication along with the provision of guides for Engineer's Day and Parent's Day.

INTERNATIONAL FELLOWSHIP

The principal objectives of this organization are to promote better relations between the various countries and to provide a place of fellowship for all students, both from the United States and from foreign nations. The Fellowship seeks to attain this goal in three ways. The first is by discussions and lectures about all nations; the second consists of dinners featuring national foods and dishes; and the third consists of radio lectures and public education about the habits and customs of the people from the various nations of the world.

First Row, Left to Right: Borthayre, Garrigue, Kisvarsanyi, Gevecker, Sutherland, Grawe, Abraham, Talsman, Misra. *Second Row:* Saupe, Palacios, Vakil, Bakleh, Chan, Haq, Batubara, Hantoro, Stourton, Patel. *Third Row:* Mehta, Inga, Mehta, Blanco, Oreyzi, Shah, Gomez, Vidal, Pike, Gorczyca. *Fourth Row:* Malik, Shafizadeh, Dias, Fallah, Khaleghian, Samrad, Kessler, Marquez, Otten, Malek.

OFFICERS

First Row, Left to Right: Abraham, Talsman, Misra. *Second Row:* Garrigue, Grawe, Sutherland.

First Row, Left to Right: Cochran, Green, Washburn, Statler, Schmidt, Fuller, Denise. Second Row: Harris, Minton, Hughes,

Schwarz, Pond, Bassett, Arimura. Third Row: Sharp, Neumeier, Moore, Latham, Hahn, Hopkins, Fesler.

PHI KAPPA PHI

Phi Kappa Phi honor society was founded in 1887 and since that time has been dedicated to Unity and Democracy of Education. Keeping its membership open to all departments of American universities and colleges, its prime purpose has remained to emphasize scholarship and character in the thoughts of college students, to foster the significant purposes for which educational institutions have been dedicated, and to stimulate mental achievement by recognition through election to membership.

The national society and its chapters seek to promote scholastic endeavor by sponsoring interesting programs emphasizing ability and education and by granting awards and scholarships. Two of the major tasks undertaken by the Missouri School of Mines chapter have been the sponsorship of public addresses and the granting of the Book Plate award to those students who have maintained a 3.0 grade point average or better for the year. The society grants graduate scholarships to graduating seniors and also maintains a student loan fund for undergraduate students in need of assistance.

OFFICERS
Left to Right: Esbaugh, Fuller, Jensen.

TAU BETA PI

Tau Beta Pi Association was founded at Lehigh University in 1885, making it one of the oldest, most notable honor societies exclusively for engineers in existence. The Missouri Beta chapter has been on the MSM campus since 1906 and has ever been a goal of every conscientious student. Members are taken from the upper one-eighth of the junior class

and from the upper one-fifth of the senior class only after extensive testing by the society.

To stimulate scholarship, Tau Beta Pi elects the outstanding freshman; to stimulate engineering sciences, the society makes awards at the annual science fair of district high schools. Tau Beta Pi is instrumental also in expressing student opinion through school sur-

First Row, Left to Right: Stevenson, James, Hahn, Kauffman, Green, Cochran, Pond, Minton, Edwards, Adam. *Second Row:* Statler, Hertzberg, Hughes, Jordan, Rath, Gibbs, Schwarz, Denise, Wood, Arimura. *Third Row:* Taliaferro, Harris, Steinman, Liptai, Kruger, Bayless, Fuller, Donaldson, Hunter, Garlich, Rephlo. *Fourth Row:* Staples, Neumeier, Hornsey, Bassett, Grinker, Washburn, Dille, Jones, Gunn.

veys of questions which may arise during the year. Another very important part of Tau Beta Pi is the brotherhood gleaned from personal association among the many engineering curricula and the promotion of professional ethics and ideals of and for its members.

OFFICERS

First Row, Left to Right: Kwan, Hensley, Fouraker, Henson, Schultz, Dille, Thomas. Second Row: Lay, Noell, Huffman, Herr, Gladney, Applequist, Salmons. Third Row: Achenbach, Patterson, Strebler, Shy, Martens.

B.S.U.

The Baptist Student Union was organized on the Missouri School of Mines' campus in 1947 with the object in sight of linking the student with the church, and promoting fellowship and Christian entertainment among the students. The only requirement for membership in BSU is that the student be enrolled in one unit organization of the local Baptist Church.

Among the activities of the BSU are the state convention, spring banquet, pre-school retreat, spring retreat, and numerous special services. The regular monthly meetings feature speakers and informal fellowship gatherings. BSU is very active in campus intramural sports composing teams from the membership whenever possible.

OFFICERS

First Row, Left to Right: Hensley, Kwan, Shultz, Patterson. Second Row: Dille, Fouraker, Herr. Third Row: Thomas, Henson, Martens.

NEWMAN CLUB

The Newman Club on our campus is only a very small part of an international organization whose chapters encircle the globe. The main idea in mind behind the Newman movement is the intellectual and spiritual education of Catholic students attending secular universities. It is this extracurricular study of the aspects of theology in modern living that completes one's practical education and prepares him to enter the realm of the modern business world.

"All work and no play makes Johnny a dull boy" is an old adage that has been adopted by the Newman Club as it has and does sponsor dances and various other social functions. Newman Club meetings provide one with an excellent opportunity to become acquainted with a great bunch of fellows. The social events held yield a favorable chance to continue good fellowship among the members.

WESLEY FOUNDATION

The Wesley Foundation is a Christian student organization located on non-church affiliated campuses. The basic idea of the foundation is to provide a "home away from home" by sponsoring social, educational, and spiritual activities in the light of Christian understanding.

Deriving its name from John Wesley, the father of Methodism, the foundation co-operates with other Christian student organizations on campus through the Interfaith Council. Through the Methodist Student Movement, the Wesley Foundation is a member of the World Student Christian Federation, United Student Christian Council, and the Student Volunteer Movement. Also through these organizations and the Methodist Church, the Wesley Foundation is a member of the World Council of Churches.

GAMMA

DELTA

Gamma Delta is an international association of Lutheran students founded in 1934 at Chicago, Illinois. Alpha Phi chapter was established at MSM in February of 1945.

The primary objectives of Gamma Delta are to provide its members with Christian fellowship, to help them to increase in Christian knowledge, and to serve the church and community. To promote these objectives, it carries on a program of religious, educational, and social activities.

Thus, the Lutheran student may find a welcomed source of religious activity and endeavor while at the School of Mines. By furthering his religious training, along with his four years of scholastic training, lies the main purpose of Gamma Delta.

OFFICERS

UNIVERSITY DAMES

OFFICERS

Left to Right: Sturgeon, Steele, Sands, Weitzel, Williams, Speidel, Grady.

First Row, Left to Right: Pelhank, Vansant, Hadler, Weitzel, Grady, Sands, Steele, Speidel, Williams, Sturgeon, Kelly, Bramon, Bassett, Bosse. *Second Row:* Groves, Iturri, Stuckenschneider, Bradley, Ray, Doss, Fridenburg, Fuller, Whitehead, Whitehead, Tilman, Highfill, Carstens, Walker, Walker, Harper, McKee, Ruser. *Third Row:* Plank, Woods, Nix, Anita, McGillan, Anderson, Cottrell, Carpenter, Vancil, Rader, Ragains, Lawrence, Hammond, Stih, Cunningham, Scobee, Shelton, Mouser. *Fourth Row:* Auberry, Kibler, Montgomery, Dennison, Prior, Carney, Barr, Patterson, Renfro, Parsons, Lutz, McIntyre, Rachel, Rachovitsky. *Fifth Row:* Ramsey, Poppitz, McNabb, Latham, Long, Wallace, Northcutt, Smith, Graham, Hanne-man, Lawson, Smith, Standley, Pollock, Swafford, Minton, Hughes, Odom.

The National Association of University Dames was founded at the University of Chicago in 1920. The MSM chapter was formed in 1941 and has been increasing steadily in membership. Composed mainly of students' wives, its aims are to promote a spirit of friendship, to furnish a means of entertainment, and to stimulate general culture among its members.

The University Dames provide a variety of activities including bowling, bridge, dramatics, singing and handicraft. The high point of the year is the Dames' graduation. While the husbands receive a degree, the wives are presented a degree in "Putting Hubby Thru School."

"M" CLUB

The "M" Club was organized to aid in the development of the athletic department. The membership is taken from those men who have participated in and who have lettered in a varsity sport. The organization has been instrumental in developing the spirit of sportsmanship and keen competition both on the MSM campus or whenever a representative team travels to another campus.

Intramural sports are made possible by the fine quality of referees and judges that the M club provides from its membership. Another benefit to the campus is the elevation of school spirit so necessary to an athletic program.

First Row, Left to Right: Johnson, Peterson, Matthews, Barre, Whitehair, Scharf, Wilson, Vancil, Cooper, Brenning, Early. *Second Row:* Donnelly, Bara, Schroeder, Meadows, Erickson, O'Mealy, Boren, Dix, Scott, Sands, Herschbach. *Third Row:* Hillmeyer, Brady, Gay, Ford, Glaeser, Booth, Sullivan, Rose, Deranja, Cooke, Schimanski. *Fourth Row:* Avery, Marble, Woodward, Kruger, Pettibon, Moss, McCaw, Meisenheimer, Broyles, Smith, Meier.

OFFICERS

Mathews, Wyatt, Leining, Malsch, Sheppard. Fourth Row: Long, Fey, Chapple, Brunkhart, Meadows, Kamman, Vasterling, Darnall, Pierce.

GLEE CLUB

The MSM Glee Club is one of the oldest official student organizations on the Missouri School of Mines campus. It was organized purely for the enjoyment of the members and students. As interest developed and the size and quality increased, the Glee Club was recognized and asked to present programs all over Missouri and surrounding states.

Under the direction of Professor John M. Brewer, the club has had another successful year. Many trips were taken including "enjoyable" trips to Stephens College in Columbia and William Woods College in Fulton. On these concert tours, many times the host choir or glee club would join ranks much to the enjoyment of the Miners. Also, when the Glee Club was in Columbia, the members had the pleasure of performing on KOMU-TV.

Membership is open to all students who meet musical requirements and practice is held weekly in the Rolla Building. This year the club was proud to receive identical sport coats to be worn at public appearances.

OFFICERS

First Row, Left to Right: Ganning, Brewer, Bennett. Second Row: Toigo, Kapfer.

CANTERBURY CLUB

First Row, Left to Right: Halbrook, Witkosky, Taylor, Finne, Dowdy. Second Row: Ozenberger, Besleme, Swancutt, Pawlowski, Brown, Laney, Bridger.

A College association of Episcopal students, the Canterbury Club, insures the college student of Christian fellowship and Spiritual guidance throughout his college life.

The primary objectives of the Canterbury Club are to provide its members with knowledge and to help them to serve the church and community. To promote these objectives, it carries on a program of religious, educational, and social activities.

Thus, the Episcopal student may find a welcome source of religious activity and endeavor while at the School of Mines.

OFFICERS

First Row, Left to Right: Taylor, Witkosky, Brown. Second Row: Finne, Halbrook, Dowdy.

First Row, Left to Right: Johnson, Robinson, Pendleton, Gerard, Kruger, Becker, Woley. Second Row: Echelmeier, Pfeuffer, Swoboda, Place, Kapfer, Wright.

THETA TAU

Theta Tau, the National Professional Engineering Society, was founded at the University of Minnesota. It is primarily concerned with the development of the engineer as an integral part of the surrounding society, as well as an advancement of professional engineering.

Theta Tau, one of the oldest campus societies, was founded in 1904. Since that time, it has chosen its members for promising engineering ability, standard scholarship, and personal worthiness. Its purpose is to provide a means of communication and fellowship between the different phases of engineering.

Theta Tau has been active in the provision of service to the campus and community. A large annual project, for which Theta Tau has long been identified, has been the composition and distribution of student calendars of campus events.

Second Row: Pfeuffer, Becker.*

SPELUNKERS

The purpose of the Spelunkers Club is to organize the students of the Missouri School of Mines, who are interested in explorations of caves and caverns that they may exchange information and experiences. This exchange of speleological knowledge and information is helpful in a scientific way as well as providing an absorbing hobby.

The relative position of Missouri School of Mines allows for many interesting cave explorations only minutes from the campus.

Contrary to popular belief, there are many uncharted caves in close proximity of Rolla, as any "Spelunker" can tell you. It is due to this abundance of caves and scientific interest which makes the organization very active and enjoyable.

C.L. DAKE

The C. L. DAKE Society is an organization open to curricula at Missouri School of Mines which deal with study and exploitation of the many earth sciences. The society provides a mode of common interests by which students may learn valuable and helpful knowledge concerning their field.

At frequent meetings, noted speakers discuss topics of interest to all earth science curricula. It is the intent of the society to broaden the general knowledge in order that one might further understand his particular field. Other programs undertaken are numerous field trips to interesting geologic areas.

RADIO CLUB

The MSM Radio Club, WOEEE, is dedicated to the science of amateur radio. It is an affiliated club of the American Radio League and has officially "worked" all states and continents.

Being a member of the Radio Amateur Civil Emergency Service and the Missouri Emergency Phone Net keeps the club's interest high in proper maintenance of equipment and operation. The club has been designated as an official relay station for emergency messages and would play an important position in civil defense.

Membership is open to all students and free message service is provided to all members and non-members.

OFFICERS

*First Row, Left to Right: Hodge, Feaster.
Second Row: Stoecker, Ganninger.*

INDEPENDENTS

The Independents were recognized as a campus organization in 1935 that all students could have a voice in campus affairs and student government at Missouri School of Mines. The purpose of the founding of the organization was to provide a common meeting place for all independent students where they might exchange ideas and interests and also develop a certain amount of fellowship. The organization also provides a means whereby the athletic talents of the independent students might be combined to enter as competition in the numerous intramural sports. All non-fraternity men are considered Independents and are eligible to join the Independent organization and to have a voice in student affairs.

*First Row, Left to Right: Stern, Hornsey, Griglione, Gilmore, Lewis, Duni-
vin, Wade, Goff, Colburn, Miller. Second Row: Statler, Washburn, Brown,

ALPHA SIGMA MU

OFFICERS

First Row, Left to Right: Washburn. Second Row: Padberg, Colandrea.

Alpha Sigma Mu, the honor society for Metallurgical Engineering students, draws its members from the outstanding members of the students enrolled in Metallurgical Engineering. Its main purpose is to recognize the honor student, but it also provides a source of friendship and congeniality to the student. Formed just this year Alpha Sigma Mu is striving to compete with the other honor fraternities as to standing, activities and recognition, by having a number of distinguished men in the Metallurgy industry speak to its members on several occasions.

ESPERANTO

The Esperanto Club on the Missouri School of Mines campus, known as Mosamo, was organized for the promotion of world communications through a common auxiliary language. Esperanto was constructed scientifically as a simplified language which employs grammar and words from the principal languages of the world. The United States Army has adopted Esperanto as the official aggressor language. The UNESCO conference discussed and labeled Esperanto as the most desirable auxiliary language.

DORM COUNSELORS
First Row, Left to Right: Ferguson, Jones, Washburn, Kauffman. Second Row: Statler, Pugh, Jordan. Third Row: Adams, Morgan.

The student housing and facilities at the Missouri School of Mines have always been adequate due to foresight and thinking on the part of school administration. This group, realizing several years ago that there would be a large influx of students especially to a technical school such as MSM, initiated the movement for more dormitory space. This year three new dormitories and a new modern cafeteria were in full operation.

DORMITORY

The Dormitory Council is the governing body of the dormitory. This group is composed of members representing floors and sections of the dormitory. The officers and dorm committees are selected from this group.

The dormitories have always been strong competitors in intramural sports and have always been active in campus affairs and activities.

DORM COUNSELORS

circulation is increased by many other people who do not attend MSM but who are mailed copies weekly.

The Miner Staff at work.

James Walther — *Editor Spring Semester.*

MINER BOARD

The Miner staff has long been proud of the quality and quantity of the material contained in its pages. Containing editorials, letters-to-the-editor, sports, news, announcements, and all topics of general interest, the circulation of the Miner is eagerly anticipated each week.

All campus organizations and fraternities are welcome to submit articles which are usually printed when space is available. Extensive coverage of sports also includes intramural sports along with varsity events.

Membership is open to the student body and much valuable experience is to be gained in the many tasks. This experience is gained in writing, advertising, leadership, and initiative. The staff and all the MSM students may well be proud of their paper.

The Engines Club House.

This the Engineer's Club, the first cooperative eating organization on the MSM campus. It was first organized in 1934 when ten fellows pooled their finances to rent a house and hire a cook, who was the mother of one of our charter members. It was then the Engineer's Club was born. Since then it has continued to grow and it now has a membership of 130 young men, and is one of the most prominent organizations on the campus.

ENGINEERS CLUB

- The Cooks for the club.

The Engineer's Club is composed of those independent students who are looking for some wholesome but inexpensive home cooking and are willing to give their time and talents to the intramurals sports program and the other club activities.

In the past years we have continued to climb in the intramural standings. Last year our efforts were rewarded as we won the intramural trophy and again this year the club is among the leaders. We owe our fine showing to the spirited participation of each of our members.

Just a coffee break.

Looks like KP tonight.

The club is directed by the President and the Board of Control, while the business is executed by the Business Manager and the Treasurer. During this school year the Building Fund, which was initiated in 1956, has continued to grow and our goal—to build our own house—can be seen in the near future.

The friendship and spirit of our members are exceeded only by those three square meals a day.

On Sunday evening, November 13, 1955, a meeting was held in room 220 of the Men's Dorm for the purpose of organizing a co-op club for the purpose of supplying board for a part of the students at MSM.

A chairman was selected to conduct the meeting after a group discussion was held. Phil Gerwert was elected chairman by the unanimous approval of those present.

The chairman conducted discussions concerning the name of the club; constitution; finances; membership, and suggested sponsors. A committee was appointed to promote the new co-op organization. A secretary-treasurer was elected by the students attending the meeting. Tom Gerwert was chosen for the job. Bud Mosby was elected publicity chairman to take care of advertising for new members.

By the next meeting the constitution was ready for the approval of the members. The preamble read as follows: The object of the Prospector's Club shall be to operate

CLUB

and maintain a non-profit cooperative eating club for non fraternity students of the Missouri School of Mines and Metallurgy.

Such was the birth of the Prospector's Club. From these 80 charter members the club has grown into the largest organization of its type on campus. The Prospector's Club was originally located between Eleventh and Twelfth streets on Pine but in November of 1957 it was moved to 1005 Elm street after the members decided that the old location was inadequate for their needs. Since moving the club has added another 30 members making a total of 150. Also new equipment was added to the kitchen.

The club is now negotiating for the purchase of the house it occupies and recently it was decided to incorporate and the proper steps are now being taken to bring this about. The club has a short but eventful history and it is hoped that the years to come will be as eventful.

Beta Sigma Psi is the National Lutheran Social Fraternity. The chapter here at the Missouri School of Mines was founded in the spring of 1952. The aims of the fraternity are to promote a fraternal society for Lutheran students at universities and colleges.

This year has proved to be a success in many ways. One of the biggest reasons for

Which is Castro?

Initiation

BETA SIGMA PSI FRATERNITY

nity to grow as rapidly as it has in the past six years.

Considering the still modest membership, the chapter has again done well in the Intramural Activities. The football, tennis, and handball teams made fine showings in the fall, and in the spring the main emphasis was on volleyball and softball.

On the social side, this year's festivities started off with the annual party after the Washington U. football game. Following this was the Homecoming dance which proved to be a big success. At the Christmas Dance, Lee Trapp again provided the musical entertainment. Next came the Valentine's Dance and then the biggest and best, St. Pat's. Now with the school year drawing to an end, everyone is looking forward to summer and to next year, with the hopes that it will be even better than this one.

this, is the fact that one of the goals that we have been striving for since our beginning has finally been realized. That is the acquisition of a new chapter house. The efforts of many people has made this dream a reality. We are sure that the acquisition of this house will enable our frater-

Sigma Nu, founded at Virginia Military Institute at Lexington in 1869, is now in its ninetieth year. In these ninety years Sigma Nu has grown into one of the largest and most financially stable organizations of its kind. Gamma Xi chapter introduced social fraternities on the Missouri School of Mines campus in January, 1903. Since this introduction, Gamma Xi has flourished into one of the largest, best known, and most successful social organizations on campus.

The 1957-58 year at Sigma Nu began with a successful rush week in September and the addition of four new brothers, along with an outstanding pledge class. In October the pledge dance was highlighted along with intramural football. In November the homecoming dance and the welcome return of many alums was

And Schenly did tricks

SIGMA NU FRATERNITY

most memorable; hats off to varsity football lettermen, Brothers Cooper, McCaw, Parker and Wheeler. In December, hosting the annual Sigma Nu Christmas Party for underprivileged children was our privilege; many youngsters were furnished with gifts, refreshments, and entertainment. In January, intramural basketball with due acknowledgement to varsity star, Brother Schaeffer; but with the semester finals approaching, classes once again began to be the feature.

Soon after the beginning of the second semester in February our annual formal, The Sigma Nu White Rose, was featured the week after the addition of twelve new brothers. In March many extracurricular activities were featured. There was boxing-wrestling with Sigma Nu taking second place in both behind champions: Brothers Butcher, Cooper, and McCaw. St. Pat's, as always, was one of the most memorable happenings of the school year. Near the end of the month, Gamma Xi was host and winner of the Missouri State Sigma Nu Basketball Tournament. In April, Sigma Nu's annual Work Week was held at Lions Park to assist the Lions in clean-up and repair of the Park they generously lended on many emergency occasions. Intramural softball was the athletic pastime in April. In May, Greek Week Spring Festivities, organized by all fraternal organizations on campus was highlighted.

At the end of this, a fine year at Sigma Nu, representative of many fine years, we realize the importance of fraternal brotherhood and will always remember this year which is especially important to those brothers we lost via diploma.

Since May 10, 1957, when Missouri Gamma of Sigma Phi Epsilon emerged from the colony; Pegis Club, its members have been striving to be the top fraternity on campus. This last year Sig Ep made another great step toward that goal. In addition to its usual part in the annual Tri-Sig Christmas party for Rolla's underprivileged children and other community services, the house-with-the-red-door

added several first place trophies to its collection. Among these were first place in St. Pat's Parade, bowling and blood drive for Spring 1958. For the Fall Semester 1958 first honors in the homecoming decorations and I. F. C. sing; quartette were added to the

The purpose of any social organization, and of Sigma Pi especially, is to provide fellowship which stimulates the mental, spiritual, moral, and physical growth of the individual. Recognizing this obligation, the Alpha Iota chapter promoted the formation of the Sigma Pi Mothers Club. This is a unique step in what we consider the right direction, for it combines the guidance that can come only from parents with the fellowship of the fraternity.

The Alpha Iota chapter also offers a well rounded social life to the member. The primary

Industrious

social functions of the school year include such events as Homecoming, the Christmas Dance, the Pledge Dance, Greek Day, and of course St. Pats. Then there is the annual chapter Christmas party where the spirit of brotherhood is promoted by the exchange of gifts accompanied by appropriate statements of sentiment.

Sigma Tau Gamma was founded at Central Missouri State Teachers College at Warrensburg, Missouri, on June 28, 1920. Here at Missouri School Mines, Alpha Omega Chapter received its charter on November 10, 1956. Since then Sigma Tau Gamma has progressed rapidly in social, scholastic, and extracurricular activities on the M.S.M. campus.

This year saw numerous improvements at the "Sig Tau Manor." Redecorating and remodeling of the chapter room provided better living quarters for our members.

To promote sportsmanship and team spirit, participation in intramural sports was greatly encouraged and increased.

Cuban Party

SIGMA TAU GAMMA FRATERNITY

The social season commenced with the welcoming of our parents on Parent's Day. Early in November, our Homecoming Dance saw our alumni returning for the weekend. Our Christmas Dance was held in conjunction with the Military Ball. This was followed by the annual Tri Sig Christmas Party for the underprivileged children of Rolla, sponsored by Sigma Tau Gamma, Sigma Pi, Sigma Phi Epsilon.

The second semester was ushered in with our Valentines Dance. Then came the big event of the year, St. Pat's. This year our St. Pat's celebration was brightened by our capture of first place in the float contest with our "Pinocchio" float. In April, Sig Tau held its annual White Rose Banquet and Dance. The year was rounded out socially by the Greek Week festivities.

This year the last of our Founders are leaving us, but they will always be remembered in the hearts of the brothers of Sigma Tau Gamma. Their excellent work and leadership in organizing Alpha Omega Chapter will remain as inspiration to those who will follow in their footsteps in the years to come.

On January 10, 1899, a society was organized by a number of students at Illinois Wesleyan University. This society, "The Knights of Classic Lore," was the start of Tau Kappa Epsilon as a fraternity. Since that time Tau Kappa Epsilon has grown in size and reputation, now it is the second largest national fraternity in the United States.

The M.S.M. chapter of Tau Kappa Epsilon, Beta Eta, has also continued to grow
Teke House

since its founding on March 9, 1947. Throughout the ensuing years Beta Eta Chapter has steadily increased in membership, and Teke on campus has rapidly attained a place of high respect.

On April 26, 1959, Theta Kappa Phi and Phi Kappa consolidated to form one national fraternity for Catholic college men. Because of this consolidation the national office of Theta Kappa Phi has retired the First National Efficiency Trophy, the highest achievement award, to Mu chapter for its outstanding accomplishments during the period of 1948 to

1958.

With the closing of the year's events, the Theta Kaps are looking forward to the benefits the new fraternity of Phi Kappa Theta will have to offer.

in himself, responsibility to chapter, college, community and country, and interests and activities outside regular scholastic studies that employ spare time to good advantage.

Here at M.S.M., the social season began with the Washington U. Football Game, which is an annual tradition with the Alpha Psi Chapter. We ended our social season for the semester with a very successful pledge dance. Valentine's Dance and the annual St. Pat's celebration provided entertainment for the second semester.

As the second year in our new house draws to a close, we can look back with fond memories upon gratifying accomplishments, which could not have been attained without the wholehearted cooperation of the active chapter and alumni group. Next year promises to be even more rewarding.

And this is my brother Francis.

Triangle, a fraternity of Engineers and Architects, was founded in 1907 by sixteen Civil Engineering students at the University of Illinois. The aims of the fraternity are to improve scholastic and social standing among engineering students.

The Missouri Mines Chapter was installed in December of 1927. It was formed from a club that was previously known as the Grubstakers Club, the first social organization on campus. Triangle has steadily risen in the ranks,

Two Engineers?

and is now considered one of the top organizations here at the Missouri School of Mines.

As in the years before, our wonderful Mother's Club has again shown us great consideration. This year, they have given us a vacuum cleaner, new dishes, and other very essential items. We are very proud of their fine organization.

Cannon Men

TRIANGLE FRATERNITY

Our house improved both socially and scholastically during this year, also. Our scholastic standing on campus showed a significant rise, and several great parties were held during the year.

This summer, we are planning to have the first floor of our house remodeled, so, with these improvements in mind, and with the very successful present year we have had, we are looking forward to great accomplishments in the future years.

Mahoney, Harris. *Second Row:* Hunt-Morton, Kane, Thompson, Coad, Rin-

Our intramural teams have shown great skill and spirit this school year. We added trophies in football, basketball, and wrestling. We also won the Interfraternity Council Sing and Bowling trophies. With good results in the remainder of the sports, we have a good chance to become the Intramural Champs for 1958 - 1959.

MILITARY BALL

Through the joint sponsorship of the Pershing Rifles and the Society of American Military Engineers, the annual Military Ball was a large success. The theme of the ball was "Operation Moonshot."

The decorations consisted of a star-filled ceiling with rockets surrounding the dance floor. A twenty foot model of the Pioneer rocket was the focal point of the decorations.

After introduction of the special maids the countdown began and a simulated rocket was fired. Its trajectory could be traced by blinking lights on the ceiling. As it struck the moon, the moon opened up to reveal the throne and the 1958 - 59 Military Ball Queen, Miss Patricia Ackley. At that time the queen was formally introduced and then crowned by General Cauhan. Dancing resumed to the music of Carl Russou and his orchestra as General Lane danced with the queen.

ST. PAT'S 1959

Friday the 13th, 1959, was indeed a lucky day for all miners as Mr. Brud Murphy, 1959 St. Pat, arrived in Rolla to begin the festivities which marked the 51st. St. Pat's celebration.

Led by St. Pat up Pine Street, one of the finest displays of floats ever assembled at MSM pleased the thousands of spectators. Sigma Tau Gamma's float, Pinnochio and the Whale, placed first among the keen competition.

The Masquerade Ball Friday evening was highlighted by the Knighting Ceremony of many campus leaders. The Coronation Ball Saturday evening was climaxed by crowning the 1959 Queen of Love and Beauty, Miss Linda Fitzgerald.
